

OUR LEGACY FOR THE FUTURE

OUR ACTIONS TODAY TO PRESERVE THE ENVIRONMENT OF TOMORROW

ACHIEVEMENTS IN 2019

ENERGY 	EMISSIONS 	WATER 	WASTE AND BY-PRODUCTS 	PACKAGING 
<p>Our plant is a pioneer in obtaining the international BREEAM Certification for sustainable construction</p>	<p>44.09 gCO₂eq/l compared to 168 gCO₂eq/l on the sector average* in 2018</p>	<p>0.8 l/l (litres of water consumed per litre produced) compared to 5,62 l/l on the sector average* in 2018</p>	<p>99% of our waste is usable, in line with the sector*</p>	<p>Aligned with the Espirituosos de España and Ecovidrio Corporate Prevention Plan</p>
<p>Improved energy efficiency using a biomass boiler and 100% LED lighting</p>			<p>75% of waste recovered for other uses</p>	<p>We combine INNOVATION and sustainability criteria in the eco-design of our packaging</p>
<p>ISO 14001 certification of our environmental management system</p>				<p>Programme using FSC certified cardboard in promotional packs</p>

TARGETS FOR 2025

We are aligned with the commitments of the FEBE (Spanish Spirits Federation)

<p>75% of energy from renewable sources</p>	<p>-15% of CO₂ emissions vs. 2018</p>	<p>-15% of water consumption vs. 2018</p>	<p>Reach the target of zero waste</p>	<p>Nearly 100% of our promotional cases to be produced using FSC certified cardboard</p>
